THE TRANSCUBE 'GLOBAL'

110% bund capacity to ensure environmental compliance.

THE TRANSCUBE 'GLOBAL'

Internal baffles to prevent fuel surge during transit. Tie down points on all 4 corners to secure tank during transit.

THE TRANSCUBE 'GLOBAL'

Tank can be lifted full of fuel via the 4 lifting eyes.

THE TRANSCUBE 'GLOBAL'

Extra protection for tank and paintwork with the galvanised framework around the tank.

THE TRANSCUBE 'GLOBAL'

Generator feed & return hoses through letterbox means lid can be kept closed and locked, even during use, for extra security.

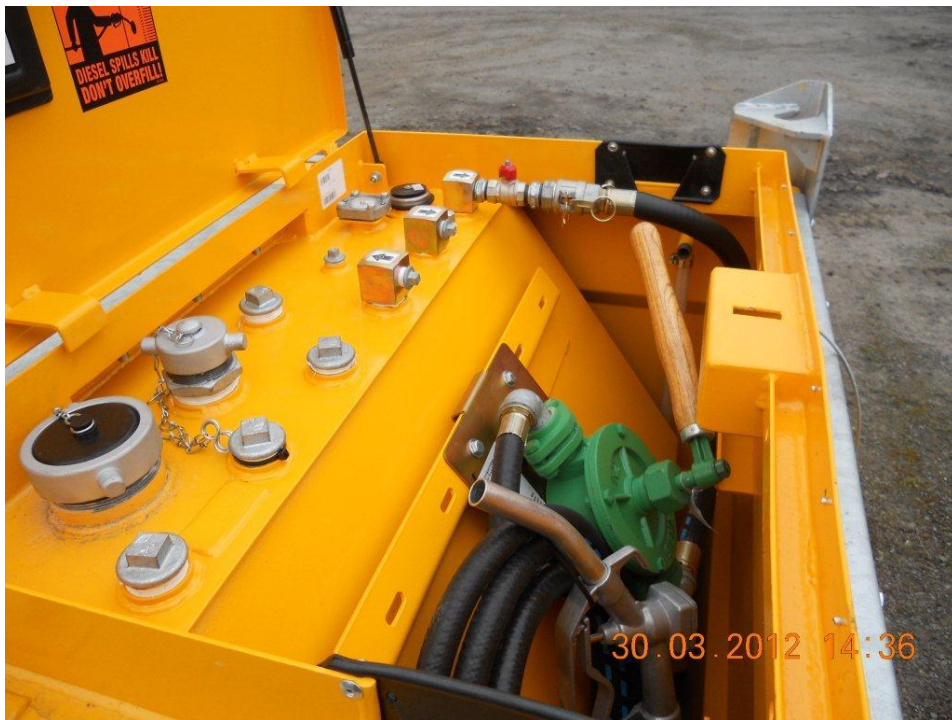

THE TRANSCUBE 'GLOBAL'

Forklift pockets are on all 4 sides for ease of manoeuvring.
