

VAISALA HAND-HELD DEWPOINT METER DM70

A portable dewpoint meter designed for industrial spot-checking and field calibration with fast response enhanced by sensor purge option and easy-to-use user interface with ability to log up to 2700 measurement points and ability to measure ppm volume and ppm weight concentration, absolute humidity, mixing ratio and relative humidity

FEATURES

- **Dew point measurement range: -50...+60 °C with ± 2 °C accuracy**
- **Temperature measurement range: -10...+60 °C with ± 0.2 °C accuracy**
- **Operating pressure: 0-20 bara**
- **Mechanical connection: G1/2" ISO228-1 (U-seal)**
